

Name: Ahkai

Summary

Aspiring Data Scientist with strong analytical thinking and experience in data processing, logic building, and problem-solving through programming.

Skills

- Programming: C, Java
- Concepts: Data analysis, logic building
- Tools: Excel (for scatter diagrams, data visualization)
- Mathematics: Statistics basics

Projects

GPA/CGPA Calculator System (C)

- Built logic-based calculation system
- Processed user input and generated results

Data Correlation Analysis (File Size vs Failure Rate)

- Used scatter diagrams to identify relationships
- Applied analytical thinking to validate hypotheses

Strengths

- Logical problem-solving
- Data interpretation
- Analytical mindset
